With a deep passion for technology and a diverse skill set spanning design, integration, problem-solving, and frontend development, I offer over 1.5+ years of hands-on experience. Excelling in translating complex business needs into effective technical solutions, I embrace the challenge of launching new projects. Grounded in a robust software engineering foundation, I am well-suited for a mid-senior level software engineer role in a cutting-edge tech-driven firm. My unwavering commitment to delivering exceptional results highlights my dedication to contributing significantly to ongoing success.

## Experience

### Web Developer at Oscar Wylee

2022 September - Present

- Proficiently developing and maintaining Magento 2.0 and WordPress websites for Oscar Wylee, ensuring ongoing functionality and up-to-date content to drive online success.
- Collaborating effectively with cross-functional teams, including designers, content writers, project managers, and testers, fostering a cohesive environment to deliver exceptional web solutions.
- Skillfully customizing and extending website themes, tailoring them to meet specific project requirements and align with the brand's unique vision and goals.
- Diligently ensuring responsive design, optimizing website performance across various devices and browsers for an enhanced user experience.
- Conducting comprehensive testing and debugging processes, promptly identifying and rectifying issues to maintain website reliability and functionality.
- Implementing SEO best practices to enhance website visibility and search engine rankings, contributing to increased organic traffic and online presence.
- Actively participating in code reviews, providing constructive feedback and insights to maintain code quality and foster continuous improvement in web development practices.

### Software Engineer (Internship) at KINIT Pvt Ltd

2021 December - 2022 July

- Actively involved in developing web applications using ReactJS, NextJS, and WordPress, gaining hands-on experience in creating dynamic and user-friendly digital solutions.
- Contributed to the implementation of reusable React components, learning and applying best practices in web development during the internship.
- Gained practical experience in testing and debugging, focusing on cross-browser compatibility and performance optimization to enhance coding skills.
- Collaborated with the team to assist in optimizing website speed, learning valuable code optimization and caching techniques to support the internship's objectives.

### Freelancer

2021 October - 2022 September

- Web Design & Development: Create visually appealing, responsive websites. Customize WordPress CMS.
- Content & Copywriting: Craft persuasive and engaging website, blog, and marketing content. Optimize for SEO and maintain brand consistency.
- Data Entry: Perform accurate and efficient data entry. Ensure data integrity and confidentiality. Meet deadlines with high-quality results.

### Computer Trainee at Samurdhi Government Bank

2017 February - 2017 July

- Gained hands-on experience in computer operations, software applications, and data management. Contributed to various aspects of banking operations, ensuring data accuracy, confidentiality, and operational efficiency.
