Mullipothana, Trincomalee, Sri Lanka

Web Developer with 3+ years of experience building responsive, SEO-optimized, and high-performance web applications using React.js, JavaScript, Magento 2, WordPress and Firebase. Skilled in UI/UX design, performance optimization, cross-browser compatibility, and mobile-first solutions. Experienced in Agile environments and currently expanding expertise in Node.js, Express, and React Native to deliver scalable full-stack applications.

Work Experience

Frontend Developer
Cloud Atlantic International Group (Oscar Wylee) | Sydney (Remote)

Sep 2022 - Sep 2025

- Developed and maintained e-commerce web pages using Magento 2 and WordPress, delivering seamless content management and enhanced customer experience.
- Increased organic traffic by 30% through SEO optimization and front-end improvements aligned with best practices.
- Optimized website speed by 15% via code refactoring, lazy loading, and image compression, improving user engagement and conversions.
- Implemented mobile-first responsive web design, boosting mobile performance by 25% and ensuring cross-browser testing and compatibility.
- Collaborated in Agile/Scrum sprints with designers, product managers, and backend developers to deliver high-quality features.

Software Engineer Internship
KINIT Pvt Ltd | Kinniya

Dec 2021 - Jun 2022

- Contributed to front-end development of web applications using HTML5, CSS3, and JavaScript.
- Developed reusable React.js components, reducing feature delivery time and enhancing maintainability.
- Supported performance optimization, cutting load times and enhancing overall user experience.
- Partnered with designers to implement SEO-friendly and responsive UI elements, improving search visibility and accessibility.

Projects

Track My Class - Scheduler & Fee Tracker
Aug 2025 - Sep 2025

Implemented a SaaS app for tutors with secure scheduling, attendance tracking, and fee management. Delivered responsive dashboards with real-time metrics, improving tutor efficiency , usability, and reporting accuracy.

Slinkup - Social Networking App
Jul 2025 - Aug 2025

Developed a social networking platform with authentication, media uploads, likes, comments, and search. Designed responsive UI and admin dashboard, enhancing scalability, moderation, and overall user engagement.

Book It - Event Booking Web App
Jul 2025 - Aug 2025

Created an event booking system with role-based authentication, real-time bookings, and cancellations. Built mobile-first dashboards with dynamic indicators, streamlining organizer worklo ws, boosting attendee engagement, and ensuring smooth deployments.

E-Shop (Final Year Project)   Feb 2021 - Feb 2022

Engineered a full-stack e-commerce platform with secure checkout and SSR for SEO. Optimized queries and CI/CD pipelines, improving scalability, search visibility, and ensuring seamless checkout experiences.
